INDICON is the flagship annual international conference of the IEEE India Council. It has been the most prestigious conference envisioned by the IEEE India Council within the realms of Computer Science and Engineering, Electrical Engineering, and Electronics and Communication Engineering. The former Annual Convention and Exhibitions (ACE) underwent a redesign and transformation, emerging as INDICON in 2004. The inaugural INDICON conference was hosted by the IEEE Kharagpur Section. Now, after 20 years, the IEEE Kharagpur Section finds itself once again spearheading INDICON 2024. It will provide a great platform for students and researchers from academia and industries to share and exchange their ideas.

### Technical Tracks

- Artificial intelligence and data science
- Computer Architecture and Embedded Systems
- Next-Gen Communications, Networks, and IoT
- Robotics and Cybernetics
- Security and Privacy
- Signal Processing and Multimedia
- Control and Automation
- Power Electronics and Power Systems
- Devices, Circuits, and Systems
- Antenna, and Microwave Techniques
- Biomedical Engineering and Healthcare
- VLSI and Nanotechnology
